

# CURVED ALUMINIUM WINDOW SECTIONS

SHOPFRONT SECTIONS  
GLAZING ADAPTORS  
CHANNELS  
COMPACT WINDOW SECTIONS

Open up the possibilities of unique window design with U-Neek curved aluminium sections.

With our ability to create smooth curves from standard aluminium sections, you gain the ability to include elegant curves in your architectural concepts.

All you need to do is provide us with your opening and rise specifications and we will calculate and create your radius without the need for templates.

**U-Neek Bending is the leader in rolling and bending aluminium**
